RE: Average Daily Membership (ADM) Methodology & Calculation

Att: Average Daily Membership for Budget Year 2023-2024 - Region 4

Average Daily Membership for Budget Year 2023-2024 - Supervision District

Average daily membership (ADM) reflects resident students of fiscal responsibility to a municipality. It is the allowed method for regional school districts to allocate budgets. Per the State of Connecticut, students attending the Connecticut Technical High School System or state charter schools are not included in ADM. The ADM allocation rates for a given budget year are based on the October 1 student enrollment counts of the prior year. For example, the ADM rates to be used in the budget development and allocation of expenses for fiscal year 2023-2024 are based on the October 1, 2022 student count.

Our methodology to calculate the ADM each year begins with PowerSchool student enrollment data. A report of student enrollment by school district as of October 1 must be submitted to the Connecticut State Department of Education (CSDE) annually during October via the Public School Information System (PSIS). This same data serves as the primary basis of the ADM calculation. The report to the state counts students by the school district attended. ADM rates are based on each student's town of residence, so the data obtained from PowerSchool must be analyzed to allocate students to their home town. A useful example of this is the Pre-Kindergarten program. As the program is housed at Essex Elementary, all students are reported to the state as part of Essex School District. However, for ADM purposes, Pre-K students are reallocated to be included in their actual town of residence. This methodology ensures the educational costs of each student are more accurately represented in the fiscal responsibility of each of the three towns.

There are other validations and adjustments to be made with the PowerSchool data before the calculation is considered FINAL.

- The Finance Office receives PowerSchool data from two different sources within the District and confirms the information is consistent; this step validates the accuracy of the starting data.
- PowerSchool data may or may not include Out of District (OOD) placements. OOD students are verified with data obtained from the Pupil Services Department and assigned to their town of residence
- PowerSchool data does not include students attending Magnet schools, the Middletown VoAg
 High School, and Vinal Technical High School, at the expense of the districts. Working with each
 school, the Assistant Superintendent, and the Pupil Services Department, students attending
 Magnet schools and the Middletown VoAg High School are confirmed and added to the counts for
 their respective towns. Vinal Technical High School students are not included in accordance with

- CT statute, and therefore the Finance Department ensures none of those students are listed in the ADM student counts.
- Non-resident students paying tuition to attend one of the schools within the districts are
 included in the PowerSchool student data as of October 1; these students must be removed from
 the enrollment data if they do not reside in one of the three towns, or allocated to the correct
 town if they do reside in one of the three towns.

Once final student count is confirmed by residency town, these figures are used to calculate the Region 4 3-way ADM allocation rate and the Supervision District 3-way and 4-way ADM allocation rates.

The ADM calculation and results are reviewed within Central Office by the Assistant Finance Director and Superintendent to ensure accuracy prior to their release to the towns each year.

Board Policy 6113.31: Class Sizes

Board of Education authorizes the Superintendent or designee to make adjustments in class size and/or consider other alternatives in the configuration of classes. When determining the necessity of class size adjustments or alternative configurations the administration shall consider various factors, including but not limited to the following:

- The mission and goals of the school district
- The number of students with special education and/or remedial education needs
- The number of students who have not met goal on the Connecticut Mastery Test, Connecticut Academic Performance Test, and other performance indicators
- The history of the students in the school
- The balance of student skills and personalities
- The overall school enrollment balanced with student needs and number of teaching sections available
- Financial and building constraints
- Other pertinent factors

Board Policy 6113.31: High School Class Sizes

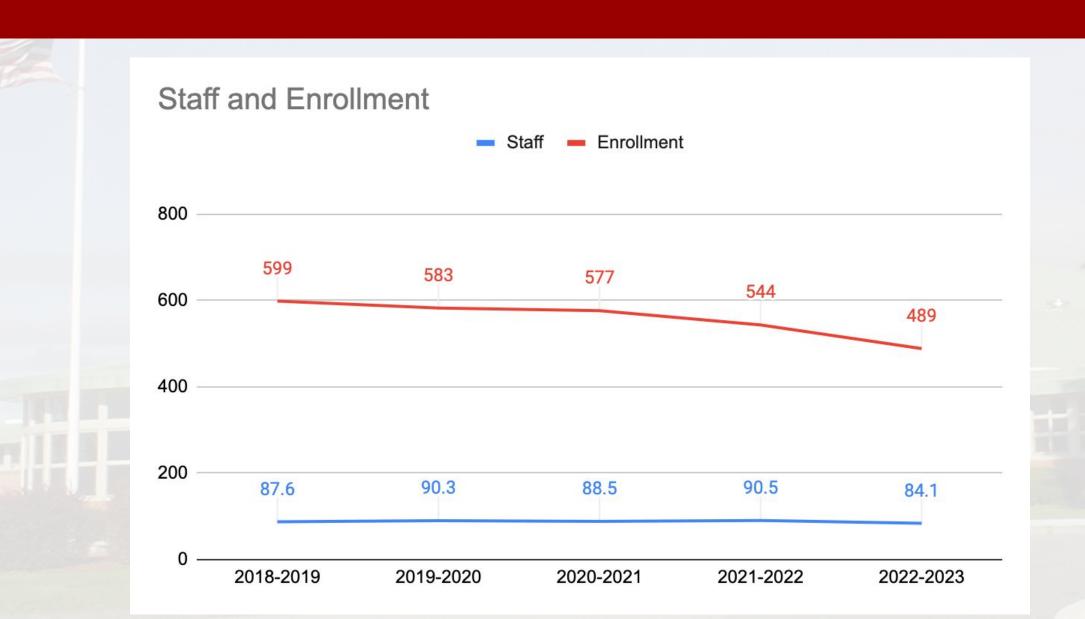

<u>High School</u> <u>Class Size</u>

Grades 9-12 18-22

High school class size may vary from the above guidelines as dictated by the needs of the students and the considerations listed previously.

Secondary school courses such as advanced placement, honors, world language, music, art, certain science, mathematics, technology, and language classes, and other specific classes may be offered at a lower or higher class size. Therefore, secondary class sizes have a lower limit of ten students and an upper limit of twenty-eight students.

- Spring 2022 Stakeholder Feedback Gathered (DLT, Faculty Meetings, Stakeholder Surveys, Stakeholder Focus Groups)
- Fall 2022
 - Joint BOE Retreat
 - Individual BOE Meeting Presentations

Strategic Planning Considerations

- The BOE strategic priorities should recognize and honor the current work and strengths of our districts.
- The strategic priorities should build on existing efforts ensuring continuity in teaching and learning practices for students and faculty.
- Strategic priorities should support increased coherence among individual districts.
- Strategic priorities should provide clear throughlines for district initiatives, while providing autonomy at the school level to address local needs and concerns.

Identified Strategic Priorities

Teaching and Learning

Climate and Culture

Finance and Operations

Strategic Priority #1: Teaching and Learning

High Leverage Strategies

To provide each student with high quality classroom instruction to promote successful student outcomes.

- Provide a standards aligned curriculum in all grades Pre-K 12
- Operationalize a unified focus Pre-K 12 on critical and creative thinking for solving difficult
 problems and to focus and align the districts' goal setting processes with these priorities across
 towns, building and grades.
- Utilize school, district, and state data to create meaningful instructional opportunities for each learner.
- Ensure equal access to intervention and enrichment opportunities for all students.

Strategic Priority #1: Teaching and Learning

High Leverage Strategies

To provide each student with high quality classroom instruction to promote successful student outcomes.

- Develop district-wide approach to implementing best instructional practices for all grades Pre-K -12.
- Implement a universal screening assessment for Mathematics, Literacy, and Social Emotional Learning K-12).
- Develop and implement multi-tiered systems of academic support and intervention.
- Conduct and complete an audit of curriculum, instruction, and assessment practices for each grade level and content area, Pre-K -12.
- Develop and implement a 5 year curriculum cycle review.
- Develop a plan of professional development for all teachers Pre-K -12 to support best instructional practices.

Strategic Priority #1: Teaching and Learning

To provide each student high quality classroom instruction to promote successful student outcomes.

Measures of Success

- SBAC (Grades 3-8)
- SAT (Grades 11)
- AP Exams
- IB Exams
- Internal Academic Assessments
- College/Career Readiness
- High School Graduation Rate

Strategic Priority #2: Culture and Climate

High Leverage Strategies

- To partner with students, staff, and
- families to maintain
- a positive learning
- environment where
 - every child is successful.

- Develop Communication Plan
- Celebrate all student accomplishments in all areas of education including academic, athletics, and the arts.
- Implement social emotional programming through instruction, curriculum model, instruction, and supports
 to ensure the safety and engagement of all students
- Engage faculty, staff, students, and families in accessible, frequent, and friendly communication
- Promote the importance of daily school attendance
- Revise and refine the Teacher Evaluation system to promote focused growth opportunities and leverage professional expertise across schools and the districts
- Develop and implement Professional Development opportunities to promote growth and expertise
- PreK -12 Behavioral Intervention Model

Strategic Priority #2: Culture and Climate

To partner with students, staff, and families to maintain a positive learning environment where every child is successful.

- Stakeholder surveys
- Discipline data
- Attendance data/ Chronic Absenteeism Rate
- Participation Rate for Student Recognition Programs
- Participation rates for extra-curricular sports, clubs and activities.

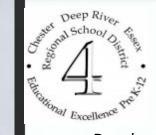

Strategic Priority #3: Finance and Operations

Develop and implement practices to ensure effective long-range, strategic financial and operational planning.

High Leverage Strategies

- Promote efficiency, eliminate operational silos, and enhance collaborative systems across schools and boards of education.
- Develop electronic, paperless systems for central office administrative processes.
- Develop a Facilities Master Plan for all schools across our districts.
- Develop multi-year capital plans for each district to implement recommendations of 2022 building study.

Strategic Priority #3: Finance and Operations

Measures of Success

Develop and implement practices to ensure effective long-range, strategic financial and operational planning.

TBD

- Review Draft Strategic Priorities with all BOEs for Feedback (Nov)
- Present Finalized Strategic Priorities to Joint BOE for Approval (Dec 1st)
- Joint BOE Retreat to Discuss Performance Measure and Building-Based,
 Continuous Improvement Planning (January 21st)
- Develop Building- Based Goals and Plans (Spring 2023)

Performance and Accountability

School Performance Index (SPI)

A School Performance Index (SPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The SPI ranges from 0-100. An SPI is reported for all students tested in a school and for students in each individual student group. Connecticut's ultimate target for an SPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. ² Cohort count includes all students in the cohort as of the end of the 2019-20 school year.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage. Sources:

^{*} The data are suppressed to ensure confidentiality.

⁴ College persistence refers to the percent of students who enrolled in college the first year after high school and returned for a second year (Freshman to Sophomore persistence).

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf

Graduation Rate Gap	94.0%	100.0%	-6.0%	5.7%	N

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.
