

DRES Facilities Meeting 11 9 23 9:30 am

In Attendance: Josh Torchia,, Bob Ferretti, Miriam Morrissey, Pete Waz, Angus McDonald, Carol Jones, Brian White

Absent: Bob Grissom

Start Time: 9:35am

Playground Update

- The playground project is in its final stages with installation of the primary end nearly completed and installation beginning on the intermediate end of the playground today. The goal is to have this completed, with mulch blown in and inspection completed for safety by Friday November 17th.
- We are tentatively planning for a ribbon cutting on the 20th with invitations to community members and others that have been instrumental in getting this project completed.

Projected projects 24/25

- Pete reviewed a number of projects proposed in the budget for 2024-2025, primarily focused on needed improvement to existing building items. There was further discussion about improvements made to the building during a large scale renovation in the 1990's that will start to reach their life in the next few years that need to be considered in future budgeting.

Time Ended: 10:05am
